WELCOME

Let's explore
your future
& unlock your
potential.

VISION

- + To bring about a transformation through responsible, creative and purposeful designs which prioritizes humankind and its varied cultures by designing products and systems that beautifully unite lessons from the past with visions of the future.
- + To deliver a holistic design education that prepares students to enhance the quality of life for people at all scales ranging from the local to the global.

MISSION

- + Students at The School of Design shall learn to become capable and skilled designers dedicated to solving problems and contributing to the public good.
- + Our approach shall draw on design thinking that ranges from craft economies to technological breakthroughs, with a holistic outlook embodying environmental sensitivity.
- + At the centre of this educational experience shall be the method of project-based learning. It shall allow students to engage with multiple scales, from on-campus research initiatives to national and international partnerships.
- + The School of Design shall be a catalyst in bringing about these changes with a focus on and engagement with critical contemporary issues.
- + Staying aligned with shifts in the global economy, society, and environment, The School of Design shall promote inclusive design for the betterment of all sections of society.

VALUES

The School of Design will be shaped by the following core values.

- + Innovation
- + Collaboration
- + Experimentation
- + Technological fluency
- + Ethics
- + Environmental concerns
- + Market understanding
