(BA, B.Ed.) SYLLABUS  
IInd Semester (2018-19)

Sub : Language across the curriculum Part

Paper Code : BAED-203

**Objectives**

- Aim of the Course Language is the medium for comprehending ideas, for reflection and thinking, as well as for expression and communication.
- Enhancing one's facility in the language of instruction is thus a vital need of student-teachers, irrespective of the subject areas that they are going to teach.
- This course is visualized as a range of primarily text-based language activities, which will aid in strengthening the ability to 'read', 'think', 'discuss and communicate' as well as to 'write' in the language of instruction.
- It is likely that student teachers will begin the programme with different levels of language ability; hence group work that supports different levels of learning is envisaged as a central feature of this course.

**UNIT 1: ENGAGING WITH NARRATIVE AND DESCRIPTIVE ACCOUNTS**

The selected texts could include stories or chapters from fiction, dramatic incidents, vivid descriptive accounts, or even well-produced comic strip stories.

**Suggested Activities**

Reading for comprehending and visualizing the account (individual plus group reading and discussion/explanation)

Re-telling the account – in one's own words/from different points of view (taking turns in a smaller group)

Narrating/describing a related account from one's life experience (in front of a smaller group)

Discussion of characters and situations – sharing interpretations and points of view (in a smaller group)

Writing based on the text, e.g. summary of a scene, extrapolation of story, converting a situation into a dialogue, etc. (individual task).

Registrar

& Medical Sciences, Sehore (M.P.)

## UNIT 2: ENGAGING WITH POPULAR SUBJECT-BASED EXPOSITORY WRITING

- The selected texts could include articles, biographical writing, or extracts from popular non-fiction writing, with themes that are drawn from the subject areas of the student teachers (various sciences, mathematics, history, geography, literature/language pieces). For this Unit, the student-teachers should work in groups divided according to their subjects, within which different texts could be read by different pairs of student-teachers.

### Suggested Activities

- Reading to extract overall meaning, information, subject knowledge (guided reading in pairs and simple note making)
- Identifying major concepts and ideas involved and making notes on these in some schematic form - flow diagram, tree diagram, mind map, etc. (guided working in pairs)
- Explaining the gist of the text/topic to others (in the larger subject group)
- Attending the writing style, subject-specific vocabulary and 'perspective' or 'reference frame' in which different topics are presented—this will vary across subjects and texts, and requires some interpretative skills for 'placing' the context of each text (group discussion and sharing)
- Writing a review or a summary of the text, with comments and opinions (individual task)

## UNIT 3: ENGAGING WITH JOURNALISTIC WRITING

- The selected texts would include newspaper or magazine articles on topics of contemporary interest. Student-teachers can be grouped randomly for this Unit.

### Suggested Activities

- Using reading strategies, such as scanning, skimming and reading for extracting information - as appropriate for initial reading of articles (guided individual task)
- Analysis of structure of the article, identifying sub-headings, key words, sequencing of ideas, use of concrete details, illustrations and/or statistical representations, etc. (guided working in pairs)
- Critical reading for attending 'framing' of the article, point(s) of view presented, possible biases or slants (small group discussion)

Registrar

Sri Surya Sri University of Technology  
& Medical Sciences, Sehore (M.P.)

- Researching and writing articles on topics of local interest (working to produce a local interest magazine).

**ED 103: Language across the curriculum  
Part 1**

**Objectives**

- Aim of the Course Language is the medium for comprehending Ideas, for reflection and thinking, as well as for expression and communication.
- Enhancing one's facility in the Language of Instruction is thus a vital need of student-teachers, irrespective of the subject areas that they are going to teach.
- This course is visualized as a range of primarily text-based language activities, which will aid in strengthening the ability to 'read', 'think', 'discuss and communicate' as well as to 'write' in the language of Instruction.
- It is likely that student teachers will begin the programme with different levels of language ability; hence group work that supports different levels of learning is envisaged as a central feature of this course.

**Course outline**

**UNIT 1: ENGAGING WITH NARRATIVE AND DESCRIPTIVE ACCOUNTS**

- The selected texts could include stories or chapters from fiction, dramatic incidents, vivid descriptive accounts, or even well-produced comic strip stories. Suggested Activities
- Reading for comprehending and visualizing the account (individual plus group reading and discussion/explanation)
  - Re-telling the account - in one's own words/from different points of view (taking turns in a smaller group)
- Narrating/describing a related account from one's life experience (in front of a smaller group)

- Discussion of characters and situations – sharing interpretations and points of view (in a smaller group)
- Writing based on the text, e.g. summary of a scene, extrapolation of story, converting a situation into a dialogue, etc. (Individual task).

### UNIT 2: ENGAGING WITH POPULAR SUBJECT-BASED EXPOSITORY WRITING

- The selected texts could include articles, biographical writing, or extracts from popular non-fiction writing, with themes that are drawn from the subject areas of the student teachers (various sciences, mathematics, history, geography, literature/language pieces) For this Unit, the student-teachers should work in groups divided according to their subjects, within which different texts could be read by different pairs of student-teachers.

#### Suggested Activities

- Reading to extract overall meaning, information, subject knowledge (guided reading in pairs and simple note making)
- Identifying major concepts and ideas involved and making notes on these in some schematic form – flow diagram, tree diagram, mind map, etc. (guided working in pairs)
- Explaining the gist of the text/topic to others (in the larger subject group)
- Attending the writing style, subject-specific vocabulary and 'perspective' or 'reference frame' in which different topics are presented—this will vary across subjects and texts, and requires some interpretative skills for 'placing' the context of each text (group discussion and sharing)
- Writing a review or a summary of the text, with comments and opinions (Individual task)

### UNIT 3: ENGAGING WITH JOURNALISTIC WRITING

- The selected texts would include newspaper or magazine articles on topics of contemporary interest. Student-teachers can be grouped randomly for this Unit.

### Suggested Activities

- Using reading strategies, such as scanning, skimming and reading for extracting information - as appropriate for initial reading of articles (guided individual task)
- Analysis of structure of the article, identifying sub-headings, key words, sequencing of ideas, use of concrete details, illustrations and/or statistical representations, etc. (guided working in pairs)
- Critical reading for attending 'framing' of the article, point(s) of view presented, possible biases or slants (small group discussion)
- Researching and writing articles on topics of local interest (working to produce a local interest magazine).

**ED 201: Learning & Teaching**

**Aims of the Course**

- To become aware of different contexts of learning and situate schools as a special environment for learning;
- To reflect on their own implicit understanding of the nature and kinds of learning;
- Gain an understanding of different theoretical perspectives on learning with a focus on cognitive views of learning as well as social-constructivism theories;
- Explore the possibilities of an understanding of processes in human cognition and meaning-making them as basis for designing learning environments and experiences at school; and
- Appreciate the critical role of learner's based on differences and contexts in making meanings, and hence draw out implications for schools and teachers.

**UNIT 1: THEORETICAL PERSPECTIVES ON LEARNING**

- Implicit knowledge and beliefs about learning (demystifying misconceptions).
- Perspectives on human learning: Behaviorist (conditioning paradigm in brief), cognitivist, information-processing view, humanist, social-constructivist (drawing selectively on the ideas of Skinner, Piaget, Rogers, Vygotsky).
- Concepts and principles of each perspective and their applicability in different learning situations.

**UNIT 2: ROLE OF LEARNER IN LEARNING**

- Role of learner in various learning situations, as seen in different theoretical perspectives
- Role of teacher in teaching-learning situations: a) transmitter of knowledge, b) model, c) facilitator, d) negotiator, e) co-learner. (The focus is on building understanding of different psychological perspectives of learning and helping student teachers to learn to apply them in different learning situations).
- Distinctions between learning as 'construction of knowledge' and learning as 'transmission and reception of knowledge'

### UNIT 3: LEARNING IN 'CONSTRUCTIVIST' PERSPECTIVE

- Social-constructivist perspective (also Bruner and Isobel's perspective) and applications of Vygotsky's ideas in teaching.
- Understanding processes that facilitate 'construction of knowledge':
  - (i) Experiential learning and reflection
  - (ii) Social mediation
  - (iii) Cognitive negotiability
  - (iv) Situated learning and cognitive apprenticeship
  - (v) Meta-cognition.
- Creating facilitative learning environments, teachers' attitudes, expectations – enhancing motivation, positive emotions, self-efficacy, collaborative and self-regulated learning. (The focus is on learning as a constructive rather than a reproductive process. The learner-centered orientation has implications for understanding learning as contextual and self-regulated process and following suitable classroom practices).

### UNIT 4: INDIVIDUAL DIFFERENCES AMONG LEARNERS

- Dimensions of differences in psychological attributes—cognitive abilities, interest, aptitude, creativity, personality, values.
- Understanding learners from multiple intelligences perspective with a focus on Gardner's theory of multiple intelligences. Implications for teaching-learning in the light of changing concept of intelligence, including emotional intelligence.
- Differences in learners based on predominant 'learning styles'.
- Differences in learners based on socio-cultural contexts: Impact of home languages of learners' and language of instruction, impact of differential 'cultural capital' of learners.
- Understanding differences based on a range of cognitive abilities— learning difficulties, slow learners and dyslexics, intellectual deficiency, intellectual giftedness. Implications for catering to individual variations in view of 'difference' rather than 'deficit' perspective.(The focus is on understanding the differential learning needs of the learners with regard to abilities, learning styles, language, socio-cultural differences/disadvantage, learning difficulties, and their implications for classroom practices and teaching)

**ED 204: Language across the curriculum –  
Part 2**

**Objectives**

It is also intended that the student teachers will develop a taste for and abilities in reading and making meaning of different kinds of texts.

- They will also learn to engage with ideas and appreciate that different kinds of writing are used to communicate these ideas in different contexts.
- Overall, areas of language proficiency which are emphasised are those that will lay a foundation for their becoming self-learners, reflective and expressive teachers, and collaborative professionals.

**UNIT 1: ENGAGING WITH SUBJECT-RELATED REFERENCE BOOKS**

For this Unit, the student-teachers should work in groups divided according to their subjects. Within these groups, pairs of student-teachers would make a choice of a specific topic in their subject area which they could research from a set of available reference books. The focus of this Unit is, as much the learning of effective processes of reference research and its presentation, as the actual reading of the reference books themselves.

**Sequence of Activities**

- Selecting the topic for research and articulating some guiding questions
- Searching and locating relevant reference books (could be from a school library or the institute library)

  
Registrar  
Sri Satya Sai University of Technology  
& Medical Sciences, Sehore (M.P.)

- Scanning, skimming and extracting relevant information from the books by making notes
- Collating notes and organising information under various sub-headings
- Planning a presentation – with display and oral components
- Making presentations to whole subject group, fielding questions.

## UNIT 2: ENGAGING WITH EDUCATIONAL WRITING

Selected texts could be drawn from the wide range of popular educational writing in the form of well-written essays, extracts or chapters from authors who deal with themes from education, schooling, teaching or learning. The writings selected should present a definite point of view or argument about some aspects of the above themes. Student-teachers can be grouped randomly for this Unit.

### Suggested Activities

- Reading for discerning the theme(s) and argument of the essay (guided reading- individually or in pairs)
- Analysing the structure of the argument—identifying main ideas, understanding topic sentences of paragraphs, supporting ideas and examples, terms used as connectors and transitions (guided small group discussion)
- Discussion of the theme, sharing responses and point(s) of view (small group discussion)
- Writing a response paper (individually or in pairs)
- Presentations of selected papers, questions and answers (large group)

**ED 205 (EPC 2): DRAMA AND ART IN  
EDUCATION**

**Introduction**

The need to integrate arts education in the formal schooling of our students is to retain our unique cultural identity in all its diversity and richness and encourage young students and creative minds to do the arts. An understanding of the arts will give our youth the ability to appreciate the richness and variety of artistic traditions as well as make them liberal, creative thinkers and good citizens of the Nation. Keeping in view some of these ideas, the National Curriculum Framework-2005, introduced arts education as a mainstream curricular area, which must be taught in every school as a compulsory subject (up to Class X) and facilities for the same may be provided in every school. Keeping this in view, it is all the more important that arts education is integrated in the school curriculum to provide an aesthetically viable atmosphere in schools encouraging creativity. For this, not only Art teachers but every teacher in the school system should be sensitized to understand and experience the use of Arts for holistic development of the learner, as a teacher as well as an individual.

**OBJECTIVES**

- Understanding basics of different Art forms – impact of Art forms on the human mind
- Enhance artistic and aesthetic sensibility among learners to enable them to respond to the beauty in different Art forms, through genuine exploration, experience and free expression
- Enhance skills for integrating different Art forms across school curriculum at secondary level
- Enhance awareness of the rich cultural heritage, artists and artisans.

**Group - B**  
**ED 401: Gender, School and Society**

**Course Objectives:**

To enable the Student to

1. To acquaint the student teachers with the concept of gendered roles in society and their challenges.
2. To develop an understanding of the inequality and disparities in equal opportunities in education in societal context.
3. To enable the student teachers to critically examine the stereotypes and rethink their beliefs.
4. To help student teachers to develop abilities to handle notion of gender and sexuality.

**COURSE CONTENTS: UNIT I Gender Issues: Key Concepts**

1. The meaning and concept of gender and experience of gender in across different social groups, regions and time-periods. Challenges in gendered roles in society: Family, caste, religion, culture, the media and popular culture (films, advertisements, songs etc.), law and the state.
2. Unequal access of education to girls; access to schools; gender identity construction at home and in society.
3. Indian societal context: Power and authority in Indian Social System (patriarchy).

Socialization of child into a specific gender influences, and opportunities for education.

**UNIT II Gender Challenges and Education**

1. Challenging gender inequalities or reinforcing gender parity; The role of schools, peers, teachers, curriculum and textbooks, etc.
2. Representation of gendered roles, relationships and ideas in textbooks and curricula.
3. Schools nurture or challenge creation of young people as masculine and feminine selves.

**UNIT III Gender Issues and Role of Teacher**

1. Counseling and Guidance: Teachers' need help to develop abilities to handle notions of gender and sexuality, (often addressing the issues under diverse cultural constraints, their own and their students', instead of shying away from the same.)
2. Sex Education: Perceptions of safety at school, home and beyond (The formulation of positive notions of sexuality among young people impact larger issues).
3. Identification of sexual abuse/violence and its verbalisation, (combating the dominant societal outlook of objectification of the female body, and so on.)

#### UNIT IV Role of the Media and Life Skills Education

1. Role of the media in propagation of popular beliefs, reinforcing gender roles in the popular culture and by implication, at school;
2. Life Skills courses in school: provisions to deal with some issues of gender identity roles and performativity for the development of positive notions of body and self.
3. Gender equality Education: of regions and exploring the roles of the institutions  
(family, caste, religion, culture, media and popular culture, law and the state).

#### Assignment:

##### 1. Group Discussion:

B.Ed. students will observe and study the distribution of roles and responsibilities in schools and classrooms, rituals and school routines, processes of disciplining distinctly as for girls and boys, and in classroom interaction. Studying the everyday activities where the majority of girls constitute the assembly choir group and the boys form the inter-school cricket

team; girls partnered to be seated with other girl students and boys with boys; sciences associated with boys and humanities with girls; art and craft considered to be the domain of the girls and physical education that of the boys; etc. Teachers need to question such stereotypes and help students rethink their beliefs. Why these issues are delineated only for supplementary extra-curricular periods in school and not integrated into subjects of study need to be discussed.

2. Group work & activities, brainstorming, audio-visual presentations; prospective teachers to attend and themselves undertake sessions of open verbalization with school students, voluntary cum friendly involvement in discussions, , together with the co-participation of school (teachers, counselors and other resources), home (parents and siblings) and society (NGOs, other expert groups, etc.).
3. Assignments and Projects: Student-teachers will be exposed and trained to prepare pedagogic material and practice a pedagogy which can develop abilities and confidence in their students to critically evaluate and challenge gender inequalities, while being sensitive to social groups.

**Action Research**

**Objectives :** Upon completion of this course the student-teacher will be able to:

1. Acquire the knowledge of concept of research and educational research.
2. Understand the concept of basic, applied and action research and their differences.
3. Understand the meaning, significance and scope of action research
4. Become aware of action research problems in different areas in schools.
5. Acquire the knowledge of steps involved and tools used in action research.
6. Acquire the skills of conducting action research and to develop the skills of interpreting and reporting the findings of action research.

**CONTENT**

**Unit 1 : Research and Educational Research**

- 1.1 Research – meaning, definition and importance.
- 1.2 Educational Research – meaning, definition and importance.
- 1.3 Steps in Educational Research.
- 1.4 Types of Research : Fundamental/Basic, Applied and Action Research–meaning definition and importance.
- 1.5 Methods of research : Historical, Experimental and Survey
- 1.6 Differences between applied and action research with reference to –
  - i) purpose, ii) definition, iii) hypotheses, iv) sample, v) data collection instruments, vi) data analysis, vii) generalization, viii) limitations

**Unit 2 : Action Research**

- 2.1 Meaning, definition and scope of action research.
- 2.2 Importance of action research to classroom teachers, administrators and guidance personnel.
- 2.3 Limitations of action research
- 2.4 Action problems in different areas in schools – examples.

**Unit 3 : Research Steps and Tools**

**3.1 Steps In Action Research**

- 3.1.1 Identifying the problem area (examples– experimental design and qualitative design).
- 3.1.2 Pinpointing the problem.
- 3.1.3 Problem analysis in terms of causes.
- 3.1.4 Identifying the objectives.
- 3.1.5 Formulating action hypotheses.
- 3.1.6 Designing action plan.

3.2.1 Achievement Test, Questionnaire, Interview Schedule, Checklist, Rating Scale – meaning, need, advantages and limitations.

3.2.2 Tests/Inventories of Aptitude, Attitude, Interest, Personality, Values, Intelligence and Creativity (Knowledge of at least 2 tests in each category).

3.2.3 Measures in classroom – Sociometric technique and Classroom Social Distance Scale (uses of these tools in action research)

3.3 Quantitative and Qualitative data : meaning and examples.

3.3.1 Analysis of the Data—frequency distribution, measures of central tendency, variability,

3.3.2 Co-efficient of correlation (Pearson's rank difference method).

3.3.3 Interpretation of data with an example – descriptive and graphical. (Note : to be discussed without computation)

### Unit 4 : Action Research Report

4.1 Format of report in terms of steps of action research (as in 3.1 above).

4.2 Summary, bibliography and appendix.

#### Assignments (any one)

Preparation of an action plan on a classroom problem such as :

- identifying causes of poor reading ability and suggesting remedial measures.
- identifying the causes and types of spelling errors and suggesting remedial measures.
- identifying the causes of poor map-reading skills and suggesting remedial measures.
- identifying the causes for poor drawing of diagrams and suggesting remedial measures.
- identifying the causes of truancy and suggesting remedial measures.

 Registrar  
 Sri Sree Sri University of Technology  
 & Medical Sciences, Solapur (M.P.)

- Becoming a self-reflective practitioner; becoming conscious of one's own attitudes and communication pattern while teaching.
- Observing children: appreciating social, economic, cultural and individual differences in children and relating with them
- Exploring and practicing ways to facilitate personal growth and develop social skills in students while teaching

#### Made of Transaction

There is no standard prescribed material for these workshops. The professional experts are expected to engage with the students with specially designed activities. These could be based on the facilitator's personal integration and unique individual and group characteristics and are rooted within the context of student's lives and contemporary realities. It is suggested that the students be given space to explore and articulate their own sense of life and its issues. They can be encouraged to think a fresh on issues that most closely concern them and use creativity and imagination to develop a perspective on them. The resource materials are an aid in this process. The resource materials can also include newspaper/web articles on contemporary concerns and movies/documentaries and other audio-visual materials. There is a suggested list of resource materials which should be contextualised and updated periodically. Expertise/ Specialization required to teach this course Specialists who have conducted personal development workshops and who have a qualification in clinical and counseling Psychology

### Suggested Approach for Teaching-learning Process

Every student-teacher must participate and practice different Art forms. They need to be encouraged to visit places of arts/see performances/ exhibitions/art and craft fairs/local craft bazaars, etc. Artists and artisans may be invited for demonstrations and interactions from the community. Student-teachers should be encouraged to maintain their diary on art interactions to enhance their knowledge and awareness in this area. Student-teachers can also be motivated to interpret art works/commercials/events etc. to enhance their aesthetics sensibility.

A Resource Centre for Arts and Crafts should be a part of all the RIEs, where materials, including books, CDs, audio and video cassettes, films, software, props, art works of Regional and National level, books and journals must be displayed for the purpose of reference and continuous motivation.

Applications of Arts and Aesthetics in day-to-day life, in the institute and in the community are some of the practical aspects, which needs to be taken care too. Student-teachers must organise and participate in the celebrations of festivals, functions, special days, etc.

#### Modes of Assessment

The complete course is of 50 marks. It is recommended that evaluation of this course should be done at both the levels; (i) Internal as well as (ii) External. Practical Activities (Units 1 and 2 of 30 marks) in nature are more on the process than the product, hence need continuous and comprehensive evaluation (CCE). Therefore, recommended to be evaluated by the internals. The theory and project part ( Unit 3 and Project work of 20 marks) can be in viva-voce and in presentation mode therefore recommended to be evaluated by the externals. The engagement of student-teacher in the above set of experiences should be evaluated on continuous and comprehensive manner, based on (a) submission of work/project; (b) participation in the activities; (c) creative potential displayed; (d) application of aesthetic sensibility in campus events and in other course activities.

## BAED-405

### ED 405: Language across the curriculum – Part 2

**Objectives** It is also intended that the student teachers will develop a taste for and abilities in reading and making meaning of different kinds of texts.

• They will also learn to engage with ideas and appreciate that different kinds of writing are used to communicate these ideas in different contexts.

• Overall, areas of language proficiency which are emphasised are those that will lay a foundation for their becoming self-learners, reflective and expressive teachers, and collaborative professionals.

#### UNIT 1: ENGAGING WITH SUBJECT-RELATED REFERENCE BOOKS

For this Unit, the student-teachers should work in groups divided according to their subjects. Within these groups, pairs of student teachers would make a choice of a specific topic in their subject area which they could research from a set of available reference books. The focus of this Unit is, as much the learning of effective processes of reference research and its presentation, as the actual reading of the reference books themselves. Sequence of Activities • Selecting the topic for research and articulating some guiding questions • Searching and locating relevant reference books (could be from a school library or the Institute library) • Scanning, skimming and extracting relevant information from the books by making notes • Collating notes and organizing information under various subheadings • Planning a presentation – with display and oral components • Making presentations to whole subject group, fielding questions.

#### UNIT 2: ENGAGING WITH EDUCATIONAL WRITING

Selected texts could be drawn from the wide range of popular educational writing in the form of well-written essays, extracts or chapters from authors who deal with themes from education, schooling, teaching or learning. The writings selected should present a definite point of view or argument about some aspects of the above themes. Student-teachers can be grouped randomly for this Unit.

##### Suggested Activities

• Reading for discerning the theme(s) and argument of the essay (guided reading- individually or in pairs) • Analysing the structure of the argument—identifying main ideas, understanding topic sentences of paragraphs, supporting ideas and examples, terms used as connectors and transitions (guided small group discussion) • Discussion of the theme, sharing responses and point(s) of view (small group discussion) • Writing a response paper (individually or in pairs) • Presentations of selected papers, questions and answers (large group)

**Introduction:**

The need to integrate arts education in the formal schooling of our students is to retain our unique cultural identity in all its diversity and richness and encourage young students and creative minds to do the arts. An understanding of the arts will give our youth the ability to appreciate the richness and variety of artistic traditions as well as make them liberal, creative thinkers and good citizens of the Nation. Keeping in view some of these ideas, the National Curriculum Framework-2005, introduced arts education as a mainstream curricular area, which must be taught in every school as a compulsory subject (up to Class X) and facilities for the same may be provided in every school. Keeping this in view, it is all the more important that arts education is integrated in the school curriculum to provide an aesthetically viable atmosphere in schools encouraging creativity. For this, not only Art teachers but every teacher in the school system should be sensitized to understand and experience the use of Arts for holistic development of the learner, as a teacher as well as an individual.

**OBJECTIVES**

- Understanding basics of different Art forms – impact of Art forms on the human mind
- Enhance artistic and aesthetic sensibility among learners to enable them to respond to the beauty in different Art forms, through genuine exploration, experience and free expression
- Enhance skills for integrating different Art forms across school curriculum at secondary level
- Enhance awareness of the rich cultural heritage, artists and artisans.

becoming the agents and catalysts of change and exploring methods of facilitating change Unit 5: Facilitating Personal Growth; Applications in Teaching = To explore attitudes and methods needed for facilitating personal growth in students = To explore ways of integrating the facilitation of personal growth and social skills within the formal curriculum Workshop Themes = Becoming a self-reflective practitioner; becoming conscious of one's own attitudes and communication pattern while teaching. = Observing children: appreciating social, economic, cultural and individual differences in children and relating with them = Exploring and practicing ways to facilitate personal growth and develop social skills in students while teaching Mode of Transaction There is no standard prescribed material for these workshops. The professional experts are expected to engage with the students with specially designed activities. These could be based on the facilitator's personal integration and unique individual and group characteristics and are rooted within the context of student's lives and contemporary realities. It is suggested that the students be given space to explore and articulate their own sense of life and its issues. They can be encouraged to think a fresh on issues that most closely concern them and use creativity and imagination to develop a perspective on them. The resource materials are an aid in this process. The resource materials can also include newspaper/web articles on contemporary concerns and movies/documentaries and other audio-visual materials. There is a suggested list of resource materials which should be contextualised and updated periodically. Expertise/ Specialisation required to teach this course Specialists who have conducted personal development workshops and who have a qualification in clinical and counseling Psychology

English POETRY AND DRAMA  
Paper Code : BAED-201 (F)**

**Rationale:** English has a rich tradition of poetry and drama. A student aspiring to become a teacher of English should be familiar with some of the poetic creations and dramatic achievements of the sixteenth and seventeenth century poets and playwrights. In order to develop a poetic sensibility a student -teacher must read some representative poems of Shakespeare, Ben Jonson, John Donne, Henry Vaughan, Andrew Marvel, Thomas Gray, William Collins, John Milton, John Dryden and Pope in addition to some plays of Shakespeare. In this paper, Shakespeare's one romantic comedy and one tragedy have been included with a view to giving the students an exposure of the dramatic works of a great poetplaywright of the world.

**Objectives: The students will be able to:**

- Acquaint with certain specimens of Elizabethan and Metaphysical and Neoclassical poetry and drama.
- Develop their analytical and imaginative powers through readings in poetry and their skills in dialogue development through their readings in drama.
- Derive pleasure out of their readings in poetry and Shakespearean drama.

**Course Contents: The paper will be divided into five (5) Units.**

**Unit I- Explanation**

Prose and its forms

Francis Bacon –Of Studies, Of Travel, Of Love, Of Revenge

**Unit II- Poetry**

- (i) Shakespeare : Shall I compare thee to a summer's day?

**Sub : Language across the curriculum Part- 1**

**Paper Code : BAED-205**

**Objective**

- Aim of the Course Language is the medium for comprehending ideas, for reflection and thinking, as well as for expression and communication.
- Enhancing one's facility in the language of instruction is thus a vital need of students-teachers, irrespective of the subject areas that they are going to teach.
- This course is visualized as a range of primarily text-based language activities, which will aid in strengthening the ability to 'read', 'think', 'discuss and communicate' as well as to 'write' in the language of instruction.
- It is likely that students teachers will begin the programme with different levels of language ability; hence group work that supports different levels of learning is envisaged as a central feature of this course.

**UNIT I: ENGAGING WITH NARRATIVE AND DESCRIPTIVE ACCOUNTS**

The selected texts could include stories or chapters from fiction, dramatic incidents, vivid descriptive accounts, or even well-produced comic strip stories. Suggested Activities

Reading for comprehending and visualizing the account (individual plus group reading and discussion/explanation)

Re-telling the account – in one's own words/from different points of view (making up a smaller group)

Narrating/describing a related account from one's life experience (in front of a smaller group)

Discussion of characters and situations – sharing interpretations and points of view (in a smaller group)

Writing based on the text, e.g. summary of a scene, extrapolation of story, converting situation into a dialogue, etc. (individual task)

## UNIT 2: ENGAGING WITH POPULAR SUBJECT-BASED EXPOSITORY WRITING

- The selected texts could include articles, biographical writing, or extracts from popular non-fiction writing, with themes that are drawn from the subject areas of the student teachers (various sciences, mathematics, history, geography, literature/language pieces) For this Unit, the student-teachers should work in groups divided according to their subjects, within which different texts could be read by different pairs of student- teachers.

### Suggested Activities

- Reading to extract overall meaning, information, subject knowledge (guided reading in pairs and simple note making)
- Identifying major concepts and ideas involved and making notes on these in some schematic form – flow diagram, tree diagram, mind map, etc. (guided working in pairs)
- Explaining the gist of the text/topic to others (in the larger subject group)
- Attending the writing style, subject-specific vocabulary and 'perspective' or 'reference frame' in which different topics are presented—this will vary across subjects and texts, and requires some interpretative skills for 'placing' the content of each text (group discussion and sharing)
- Writing a review or a summary of the text, with comments and opinions (individual task)

## UNIT 3: ENGAGING WITH JOURNALISTIC WRITING

- The selected texts would include newspaper or magazine articles on topics of contemporary interest. Student-teachers can be grouped randomly for this Unit.

### Suggested Activities

- Using reading strategies, such as scanning, skimming and reading for extracting information – as appropriate for initial reading of articles (guided individual task)
- Analysis of structure of the article, identifying sub-headings, key words, sequencing of ideas, use of concrete details, illustrations and/or statistical representations, etc. (guided working in pairs)
- Critical reading for attending 'framing' of the article, point(s) of view presented, possible biases or slants (small group discussion)
