CERTIFICATE PROGRAM IN ENVIRONMENTAL MANAGEMENT SYSTEM

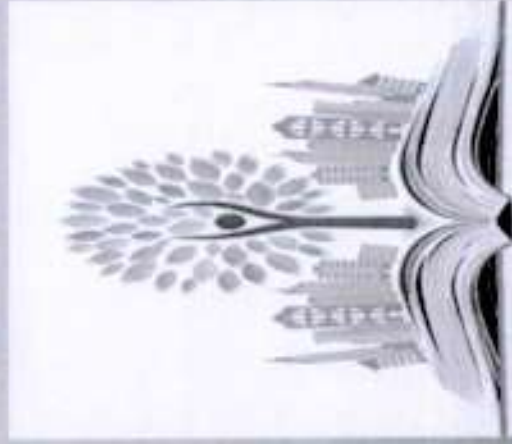

**INTRODUCTION TO THE COURSE:** This course deals with the introduction to Environmental Management Systems. It emphasizes on the Framework for developing an Environmental Management System, introduction and implementation of ISO 14001: environmental policy, planning, implementation and operation, checking, management review, etc. This course also reviews the Procedures and Guidelines to conduct Environmental Audit.

**PROGRAM OBJECTIVES:**

To acquire deeper knowledge about Environmental Management Systems (EMS).  
To get practice in introducing Environmental Management Systems, be stimulated to discuss and reflect on the possibilities and limitations of Environmental Management Systems, and train their critical thinking and writing abilities.  
To enable the students to Develop Engineered systems for resources, energy recovery & material recovery and also to carry out Environmental Audit.

**COURSE HIGHLIGHTS**

- ❖ Certificates on Environmental Management System
- ❖ All the students of Engineering and Science branch
- ❖ Includes session from expert

**FACULTY COORDINATOR**

**COURSE NAME: ENVIRONMENTAL MANAGEMENT SYSTEM**

**Course Outline**

S No	Content	Hours
1.	The context of environmental management, overview of the state of the global environment, the earth's natural systems, sustainability and sustainable development-Case study	2
2.	Introduction to the evaluation tools, environmental management system (EMS), organizational barriers, management responsibility, elements and extent of application, EMS structure	4
3.	ISO 14000-Background, the ISO 14000 series, business and standards, voluntary standards and GATT/WTO, ISO 14000 and world practice, ISO 14000 in US, ISO Europe, international chamber of commerce principles, ISO in developing world; ISO 14001 & elements of EMS-environmental policy, planning, implementation and operation checking & correction action and management review-Case study	6
4.	Auditing Scope and objectives, standards for auditing, registration, implementing the audit, procedures, benefits, environmental auditing as a management tool-Case study	6
5.	Life Cycle Assessment Components of LCA, measuring environmental impact (life-cycle stages of product, boundaries, functional unit, issues at each life-cycle stage, benefits of LCA), strategic framework for LCA and LCA-a tool for sustainability-Case study	6
6.	Evaluating Environmental Performance Collecting data, analyzing data, evaluating information, reporting and communicating, reviewing-Case study	6

## CERTIFICATE PROGRAM IN ARTIFICIAL INTELLIGENCE & MACHINE LEARNING

### INTRODUCTION TO THE COURSE

Artificial intelligence and machine learning have long since found their way into large parts of industry. Success has recently been achieved in autonomous driving, medical image processing or material testing. In future, Artificial Intelligence (AI) will play an even greater role in numerous industries and scenarios. To remain fit for this future, companies have to deal with the basics of AI and machine learning.

These basics are imparted in the workshop on Machine Learning, which bundles the sheer flood of information and offers you a compact overview of theory and practice in machine learning. You receive the hands-on knowledge you need to integrate the enormous potential of artificial intelligence into your product portfolio and value chain.

This workshop is very practice-oriented. Half of it consists of applied exercises on a consistent topic. You will learn the relevant methods and practices around machine learning while focusing on artificial neural networks, the basis of deep learning.

### THE LEARNING OUTCOMES ARE –

By the end of the module, students should be able to:

- Develop an appreciation for what is involved in Learning models from data
- Understand a wide variety of learning algorithms
- Understand how to evaluate models generated from data
- Apply the algorithms to a real problem, optimize the models learned and report on the expected accuracy that can be achieved by applying the models

### BROAD TOPICS TO BE COVERED IN THE COURSE

- Basics
- Landscape of Machine Learning Methods
- Single-layer neuronal networks (perceptrons)
- Basic terms & tools
- Multilayer neural networks

  
Registrar  
Sri Satya Sai University of Technology

## Training Program On SATELITE COMMUNICATION

### INTRODUCTION TO THE COURSE

Satellite Communications Training Workshop course focuses on basics of satellite comm technologies including key concepts, system survey, transponders, payloads, systems engine architecture of satellite systems, system requirements, voice, video, imaging, sensor fusion, IP n protocols UDP/TCP/IP, concept of operations (ConOps), analyzing end-to-end, satellite requirements, constellation, cybersecurity, threat analysis and mitigation.

### COURSE HIGHLIGHTS

- Certificates on Satellite Communication
- All the students of electronics & communication engineering
- Includes session from expert

### PROGRAM OBJECTIVES

- To explain the basics of Satellite Communications (SATCOM).
- To understand new SATCOM services and features.
- To understand modern satellite system design , multiple access, modulation and coding schemes.

### BROAD TOPICS TO BE COVERED IN THE COURSE

- Basic Components, Transmitters, Antennas, Power Generation.
- Air Interfacing and Networking, Satellite Systems Planning, Multiple Access Techniques
- Propagation Interference and Regulation, Spacecraft Engineering and Operations.
- Modulation and Modems, Military Satellite Communications, Satellite Navigation and Positioning

### CAREER OPPORTUNITIES

- Wireless Product Manager
- Technical Support Engineer
- Telecommunication Engineer

### DEPARTMENT OF ELECTRONICS & COMMUNICATION ENGINEERING

Title	Satellite Communication
Date	2 Aug 2021 – 18 Aug 2021
Duration	30 Hrs.
Resource Person	Mr. R. S. Baghel
Report/Summary	Department of electronics & communication Engineering organized 15 days training program on "Satelite Communication" for all the students of electronics & communication engineering. The venue was smart class room no 215, Block no - A. Respected HOD Mr. Devendra Patle addressed the participants in the inaugural session. Objective of the program is To explain the basics of Satellite Communications (SATCOM),to understand new SATCOM services and features,to understand modern satellite system design , multiple access, modulation and coding schemes.

  
Registrar  
Sri Sai University of Technology  
& Medical Sciences, Sec-01

**Course Objectives :**

1. To understand the emerging additive manufacturing technologies and applications in a variety of industries.
2. Discuss the economic implications of additive manufacturing businesses.
3. Apply additive manufacturing simulation for time and cost savings

<b>Duration</b>	<b>Module</b>	<b>Topics</b>
Day 1 ( 2 hours) (02/08/2021)	Module -1 <b>(Satellite Orbits and Trajectories)</b>	<ul style="list-style-type: none"> <li>• Communications system - an overview.</li> <li>• Basic Principles</li> <li>• Orbital parameters</li> </ul>
Day 2 ( 2 hours) (03/08/2021)	Module -1 <b>(Satellite Orbits and Trajectories)</b>	<ul style="list-style-type: none"> <li>• Types of Satellite orbits</li> <li>• Orbital perturbations</li> <li>• Satellite stabilization</li> <li>• Injection velocity and satellite trajectory</li> </ul>
Day 3 ( 2 hours) (04/08/2021)	Module -1 <b>(Satellite Orbits and Trajectories)</b>	<p><b>Satellite performance</b></p> <ul style="list-style-type: none"> <li>• Look angles: Azimuth angle, Elevation angle</li> <li>• Orbital effects on satellite's performance</li> </ul>
Day 4 ( 2 hours) (05/08/2021)	Module -2 <b>(Satellite subsystem)</b>	<ul style="list-style-type: none"> <li>• Power supply subsystem</li> <li>• Attitude and Orbit control</li> </ul>

#### **A WORKSHOP ON**

## **Electric Vehicle and Technology**

Transportation is a backbone for countries economy. The traditional fossil fuel vehicles are facing serious challenges in terms of fuel efficiency, green house emission and fuel cost. Due to diminishing resources of fossil fuels, the current research in automotive industry is in mainstream with Electric vehicles. The technology behind energy conversion from electric energy to mechanical energy has to deal with many challenges such as power train issues, charging infrastructure, grid impact, or directly from the RES, batteries in the vehicles, converters and electric motors.

#### **COURSE HIGHLIGHTS**

- Certificates on Renewable Energy Pathways and Technologies
  - Students aspiring to work in EV and climate change.
  - Includes session from academic expert and industry experienced
- 
- An awareness about the research requirement of automotive industry
  - Opportunities in Electric vehicle research area
  - Transition from fossil fuel to renewable integration
- 
- Battery Technology and Control Systems
  - Designing Embedded systems for Electric Vehicles
- 
- Career Opportunities in EV Industry
  - Design and validation of EV

Title	Electrical Vehicle Technologies
Date	6/08/2021 TO 4/9/2021
Duration	30 Hrs.
Resource Person	Dr.Manish Patil
Report/Summary	Department of Electrical Engineering organized 2 week training program on <b>Electrical Vehicle Technologies</b> for all the students of electrical engineering. The venue was Room no 302 Block D, Block no - A. Prof G Verma addressed the participants in the inaugural session. <b>Electrical Vehicle Technologies</b> is a programme exclusively designed for the students preparing for EV Sector . The ultimate goal of the hybrid electric vehicle is to provide the equivalent power, range, cost and safety of a conventional vehicle while reducing fuel costs and harmful emissions. At present a HEV is able to operate nearly twice as efficiently as traditional internal combustion vehicles.

**Report Of The Program**

The Department Of Electrical Engineering Under School Of Engineering Sri Satya Sai University Of Technology And Medical Sciences, Sehore has organized 30 hours value added program for students under **electrical vehicle technology ie EV**. The global number of light-duty vehicles is estimated to roughly double by midcentury, Together with new technologies, policies play a key role in the low-carbon transformation. The student learned about the Battery Design and Manufacturing Packaging and Safety. They learned the state of art of Motor Control methods and EV Transmission.

**TRAINING PROGRAM ON  
FIRST-AID**

**INTRODUCTION TO THE COURSE**

First aid is the first and immediate assistance given to any person suffering from either a minor or serious illness or injury. As per mines rule Every underground mine shall be adequate and suitable arrangements are made for the speedy removal from the mine to a dispensary or hospital, of persons employed in the mine who while on duty suffers from serious bodily injury or illness of a serious nature. At every mine employing more than 150 persons on any one day of the preceding calendar year, there shall be provided and maintained in good order a suitable first-aid room & A first aid station shall be established at the bottom of every shaft where men or material are normally wound, near the drive end of every haulage and at the entrance to every district or section of the mine.

**HIGHLIGHTS**

- Certificates on First-Aid
- All the students of Mining engineering
- Includes session from expert

**PROGRAM OBJECTIVES**

- To improve the knowledge and skill of First Aider deployed in Mines
- Statutory Provisions in Mines for First Aid
- To learn the proper uses of Splinters and Slings, the process of CPR, Wounds, and Bleeding & handle the burn injury.

**BROAD TOPICS TO BE COVERED IN THE COURSE**

- First Aid Materials
- Cardiopulmonary resuscitation
- Basics of First Aid

**CAREER OPPORTUNITIES**

- First-aid Instructor
- Mine Safety Manager
- Health & safety specialist
- Safety Technician

**FACULTY COORDINATOR**

**GAS TESTING**

### INTRODUCTION TO THE COURSE

In underground coal mines are much more dangerous, as it incorporates the risky fumes and the hazardous gases that may be present in an influential quantity that can have physiological effects on the human body and can even be lethal. Timely Detection of these hazardous gases is a major challenge and needs to be followed for the safety of the miners present in the mine. As per CMR-2017, No person shall be appointed as a competent person unless he holds a Gas Testing Certificate. In a gassy seam of the second or third degree, no person shall be appointed to supervise or operate any electrical machinery, apparatus, or appliance other than a telephone or signaling device or an electric lamp or light unless he holds a gas-testing certificate.

### COURSE HIGHLIGHTS

- ✓ Certificates on Gas Testing lab
- ✓ All the students of mining engineering
- ✓ Includes session from expert

### PROGRAM OBJECTIVES

- ❖ The objective of the course is to make fully conversant with the hazard due to Mine Gases to avoid explosion of gases and to prevent endangering person from the harmful and poisonous effect of the gases.
- ❖ Difference between Oxidation, Combustion, Explosion, and Detonation. Type of underground mine gases & physiological effect of the gas.
- ❖ How to checking of gas with gas detector & flame safety lamp.

### BROAD TOPICS TO BE COVERED IN THE COURSE

- ✓ Introduction of Gas Testing
- ✓ Units, Basic Calculations, and Gas laws
- ✓ Types of Mine Gases and Damp
- ✓ Physiological Effect of Gases

### ❖ CAREER OPPORTUNITIES

- ✓ Production engineer
- ✓ Mine safety manager
- ✓ Mining engineer

## SCHOOL OF MANAGEMENT STUDIES

### 2021-22 ONLINE

#### INTRODUVTION TO THE COURSE

30Hours

Digital Marketing, also called online marketing, is the promotion of brands to connect with potential customers using the internet and other forms of digital communication. This includes not only Email, Social Media, and web-based advertising, but also text and multimedia messages as a marketing channel.

#### COURSE HIGHLIGHTS

Certificates on Digital Marketing expert  
All the student of MBA  
includes course session from expert

#### PROGRAM OBJECTIVES

To maximized digital marketing & growth  
Identify role of aggregators in ecommerce business  
Illustrate the Importance of content in digital space.

#### BROAD TOPICS TO BE COVERED N THE COURSE

Learning the basic knowledge of Web Analytics  
Search Engine Optimization (SEO)  
Marketing and advertising of products or services using digital technologies.

#### CAREER OPPORTUNITIES

Social media marketing manage  
Digital advertising expert  
Leadership and Team Collaboration

#### FACULTY COORDINATOR

Mr. PRADEEP MAHESHWARI  
Assistant Professor  
Deptt. Management

\*In view of the situation of covid -19, it is not possible to make the training program offline : therefore the guidelines issued by the concerned authorities should be completed through online medium.

14	13/11/2021	3-5 (PM)
15	15/11/2021	3-5 (PM)

The training was arranged in collaboration with experience faculty was undertaken by PRADEEP MAHESHWARI,

During this 15 days training students gained knowledge & understanding about Training on Digital Marketing The Executive Programme in Branding and Advertising will equip participants with a strong foundation in the branding practices of the 21st century. You will learn strategic thinking for brands, and how to create powerful communication that sets your brand apart. This Digital Marketing course will also provide a hands-on understanding of planning and executing effective advertising campaigns, which is the key to attracting and retaining customers.

Registrar

Post-training student's feedback was very encouraging, as according to them, they not just gained conceptual knowledge about Explore the Digital Marketing applications suite. Digital marketing, also called online marketing, is the promotion of brands to connect with potential customers using the internet and other forms of digital communication. This includes not only email, social media, and web-based advertising, but also text and multimedia messages as a marketing channel

## **Certificate Program in Artificial Intelligence for Business**

**2021-22 ONLINE**

**30 Hours**

### **INTRODUCTION TO THE COURSE**

Certificate Program in Artificial Intelligence for Business, you'll have the unique opportunity to engage with thought leaders in technology and business strategy while exploring how applications of AI can be leveraged for a competitive advantage.

### **COURSE HIGHLIGHTS**

- Data Science
- User experience designer
- Advance Data Science & AI Certification Program

### **PROGRAM OBJECTIVES**

#### **Program objectives**

- More Positive result from marketing activities
- And increased revenue
- Better understanding of customer and
- Improved experience of service offered
- Improved and more reliable customer service

### **BROAD TOPICS TO BE COVERED IN THE COURSE**

- Bias and Discrimination in AI
- Digital Transformation
- Ethics in the age of AI
- AI in Practice

### **CAREER OPPORTUNITIES**

- Software development
- Business intelligence
- IT consulting
- Game programmer
- Business intelligence

### **FACULTY COORDINATOR**

**Mr. AADARSH SAXENA**  
Assistant Professor  
Deptt. Management

# Training & Certification Program in Artificial Intelligence for Business

(CPAIB)- 2021-22 (Online)

**SCHOOL OF ENGINEERING**

**MBA**

**PRACTITIONER'S APPROACH TO ARTIFICIAL INTELLIGENCE  
(15DAYS -30 HOURS)**

CAIML is an intensive application oriented; real-world scenario based program in AI & ML. CAIML is a 15 days (30 hours), intensive skill oriented, practical training program required for building business models for analytics. It is designed to give the participant enough exposure to the variety of applications that can be built using techniques covered under this program. This course is designed for the experienced professionals from variety of IT backgrounds. No prior knowledge of statistics or modeling is assumed.

## **OBJECTIVES**

- Acquire advanced Data Analysis skills.
- Stay Industry relevant and grow in your career.
- Create AI/ML solutions for various business problems.
- Build and deploy production grade AI/ML applications.
- Apply AI/ML methods, techniques and tools immediate

## **Unit 1: Introduction to Data Science and AI & ML**

**(1 WEEK)**

- Data Science, AI & ML
- Use Cases in Business and Scope
- Scientific Method
- Modeling Concepts
- CRISP-DM Method

## **Unit 2: R Essentials (Tutorial) Programming**

- Commands and Syntax
- Packages and Libraries
- Introduction to Data Types
- Data Structures in R - Vectors, Matrices, Arrays, Lists, Factors, Data Frames
- Importing and Exporting Data.
- Control structures and Functions

  
**Registrar**  
Sri Satya Sai University of Technology  
& Medical Sciences, Sehore (M.P.)

## Descriptive Statistics

- Data exploration (histograms, bar chart, box plot, line graph, scatter plot)
- Qualitative and Quantitative Data
- Measure of Central Tendency (Mean, Median and Mode),
- Measure of Positions (Quartiles, Deciles, Percentiles and Quantiles),
- Measure of Dispersion (Range, Median, Absolute deviation about median, Variance and Standard deviation), Anscombe's quartet
- Other Measures: Quartile and Percentile, Interquartile Range

## Unit 3: Statistical Analysis Initial Data Analysis

(2 WEEK)

- Relationship between attributes: Covariance, Correlation Coefficient, Chi Square
- Measure of Distribution (Skewness and Kurtosis), Box and Whisker Plot (Box Plot and its parts, Using Box Plots to compare distribution) and other statistical graphs

## Unit 4: Foundations for AI

- AI: Application areas
- AI Basics (Divide and Conquer, Greedy, Branch and Bound, Gradient Descent)
- NN basics (Perceptron and MLP, FFN, Back propagation)

## Unit 5: Data Acquisition

- Gather information from different sources.
- Internal systems and External systems.
- Web APIs, Open Data Sources, Data APIs, Web Scrapping
- Relational Database access (queries) to process/access data.

This is foundational to Data Scientists. This requires a nontrivial understanding of the real-world problems. It involves judgments such as those about the relevance and representativeness of the data. This module helps participants to have a good understanding of the methods, methodologies and techniques from the basics of statistics and probability obtain supporting evidence through data, isolate or identify factors to construct models that can uncover relationships and variation in processes.

### WORKSHOP ON CRIMES AGAINST WOMEN

#### INTRODUCTION TO THE COURSE

Crimes against women are of various types as crimes involving sex for economic gains including prostitution, wrongful confinement, trafficking, dowry extortion, rape, assault, harassment at work place, gang-rape, acid-attack, kidnapping, and other immoral acts are injurious to the society.

Crimes like rape, dowry death, domestic violence, kidnapping, molestation, torture, sexual harassment are experienced by women in India.

#### HIGHLIGHTS

- Certificate on crimes against women
- All the students (from 3<sup>rd</sup> year on words)
- Includes session from experts

#### PROGRAM OBJECTIVES

- To identify and determine that every act of violence is unlawful and punishable by law
- To reduce sexual harassment in the city and to increase women's and girls' feelings of safety in a specific neighborhoods/s in the city
- To decrease the incidence (number of experiences) of sexual harassment women and girls experience in a year by X%; to increase the public's knowledge of what constitutes sexual harassment; and to increase women's confidence and desire to use public spaces in the city at night.

#### BROAD TOPICS TO BE COVERED IN THE COURSE

- Constitution of India, 1950 played the important role in reducing the discrimination. There are so many provisions in constitution of India which are against the discrimination between genders and so many DPSPs are also present which help in women empowerment. Preamble on constitution doesn't discriminate men and women but treats them alike.

#### CAREER OPPORTUNITIES

- The lawyer has a superior opportunity of being a good lawyer in crimes against women.
- Enhance your own practice

## DEPARTMENT OF EDUCATION

### Value Added Courses (Communication Skill)

## INTRODUCTION TO THE COURSE

Effective communication skills are fundamental to good interactions between two or more people. This book, *An Introduction to Communication Skills*, is the first in the series. It starts by explaining more about the theory and nature of communication, then moves on to discuss effective spoken communication, the importance of body language and other aspects of non-verbal communication, and the essential skill of listening to others, before discussing barriers to communication, and how to improve communication.

## COURSE HIGHLIGHTS

- Certificates on Additive Communication Skill
- All the students of Education Department
- Includes session from expert

## PROGRAM OBJECTIVES

- Communication objectives are the reasons that a business or individual may choose to interact, or communicate, with customers, employees, coworkers or other businesses and what the business hopes to gain from the exchange. This communication may come in the form of conversations, written statements, marketing campaigns or any other strategy that conveys information. Creating objectives before communicating can help a business or individual develop strategies that guide the content of each instance of communication. This can help them reach efficiently reach goals.

## DEPARTMENT OF EDUCATION

### Value Added Courses (Communication Skill)

## INTRODUCTION TO THE COURSE

Effective communication skills are fundamental to good interactions between two or more people. This book, *An Introduction to Communication Skills*, is the first in the series. It starts by explaining more about the theory and nature of communication, then moves on to discuss effective spoken communication, the importance of body language and other aspects of non-verbal communication, and the essential skill of listening to others, before discussing barriers to communication, and how to improve communication.

## COURSE HIGHLIGHTS

- Certificates on Additive Communication Skill
- All the students of Education Department
- Includes session from expert

## PROGRAM OBJECTIVES

- Communication objectives are the reasons that a business or individual may choose to interact, or communicate, with customers, employees, coworkers or other businesses and what the business hopes to gain from the exchange. This communication may come in the form of conversations, written statements, marketing campaigns or any other strategy that conveys information. Creating objectives before communicating can help a business or individual develop strategies that guide the content of each instance of communication. This can help them reach efficiently reach goals.

## DEPARTMENT OF EDUCATION

### Value Added Courses (Communication Skill)

## INTRODUCTION TO THE COURSE

Effective communication skills are fundamental to good interactions between two or more people. This book, *An Introduction to Communication Skills*, is the first in the series. It starts by explaining more about the theory and nature of communication, then moves on to discuss effective spoken communication, the importance of body language and other aspects of non-verbal communication, and the essential skill of listening to others, before discussing barriers to communication, and how to improve communication.

## COURSE HIGHLIGHTS

- Certificates on Additive Communication Skill
- All the students of Education Department
- Includes session from expert

## PROGRAM OBJECTIVES

- Communication objectives are the reasons that a business or individual may choose to interact, or communicate, with customers, employees, coworkers or other businesses and what the business hopes to gain from the exchange. This communication may come in the form of conversations, written statements, marketing campaigns or any other strategy that conveys information. Creating objectives before communicating can help a business or individual develop strategies that guide the content of each instance of communication. This can help them reach efficiently reach goals.

## *"YOGA & LIFE SKILL"*

Yoga education helps in self discipline and self-control, leading to immense amount of awareness, concentration and higher level of consciousness. Briefly the aims and objectives of Yoga education are:

- 1) To enable the student to have good health.
- 2) To practice mental hygiene.
- 3) To possess emotional stability.
- 4) To integrate moral values.
- 5) To attain higher level of consciousness.

## MORAL VALUES AND ETHICS

*Morality (from Latin moralitas 'manner, character, proper behavior') is the differentiation of intentions, decisions and actions between those that are distinguished as proper (right) and those that are improper (wrong).<sup>1,2</sup> Morality can be a body of standards or principles derived from a code of conduct from a particular philosophy, religion or culture, or it can derive from a standard that a person believes should be universal.<sup>2</sup> Morality may also be specifically synonymous with "goodness" or "virtue".*

DAY WISE CONTENT- "AEROBICS TRAINING" (36 hours)

(2021-22)

Day 1:- Concepts of aerobic training
Day 2:- Concepts of aerobic training
Day 3:- Benefits of aerobic training
Day 4:- Benefits of aerobic training
Day 5:- Benefits of aerobic training
Day 6:- Heart rate training zone concepts
Day 7:- Heart rate training zone concepts
Day 8:- Heart rate training zone concepts
Day 9:- Aerobic training tempo to applied aerobic energy systems
Day 10:- Aerobic training tempo to applied aerobic energy systems
Day 11:- Aerobic training tempo to applied aerobic energy systems
Day 12:- Physiological responses to aerobic training
Day 13:- Physiological responses to aerobic training
Day 14:- Physiological responses to aerobic training
Day 15:- Types of aerobic training
Day 16:- Types of aerobic training
Day 17:- Types of aerobic training

**A CERTIFICATE COURSE ON  
Environmental Pollution, Management & Health [ONLINE MODE]**

INTRODUCTION TO THE COURSE

- Environmental pollution has become a major issue globally, impacting both human health and the environment.
- This value-added program aims to equip students with the knowledge and skills required to understand, manage, and mitigate environmental pollution, promoting a healthier environment and better public health.

COURSE HIGHLIGHTS

- Experienced and qualified faculty with expertise in environmental management and public health.
- Comprehensive study material covering all important topics in environmental pollution, management, and health.

PROGRAM OBJECTIVES

- ❖ To provide students with a comprehensive understanding of environmental pollution and its impacts on human health and the environment.
- ❖ To help students master the principles and practices of environmental management and mitigation.

BROAD TOPICS TO BE COVERED IN THE COURSE

- Environmental Pollution: Sources, Effects, and Control
- Environmental Management: Principles and Practices
- Public Health and Environmental Pollution
- Emerging Issues in Environmental Pollution and Management

CAREER OPPORTUNITIES

- Graduates of this program can pursue careers in various sectors, including environmental management, public health, policy-making, and advocacy.

DEPARTMENT OF SCIENCE

---

Report of the program “**Environmental pollution, management and health**”  
2021-22.

The Department of science (UTD) SRI SATYA SAI University has organized a 30 hours program on ENVIRONMENTAL POLLUTION, MANAGEMENT AND HEALTH. All the registered students attended the program and get the knowledge about the concerned matter. The program continued for almost one and half month. The program was conducted for the students of B.Sc and M.Sc by the departmental faculty of Science (UTD), SSSUTMS.

Brief summary about the course:

In this course the students were taught about the basics of environmental pollution, its effects on biodiversity. The students also get knowledge about strategies to curb these environmental issues and make our environment ecofriendly.

**A CERTIFICATE COURSE ON**  
**HOSPITAL WASTE MANAGEMENT**

**INTRODUCTION TO THE COURSE**

Hospital and other health care establishment has a duty of care for the environment and for public health and have particular responsibility in relation to the waste they produce. The establishment is done to ensure that there are no adverse health and environmental consequences of the waste handling, treatment and disposable activities. It includes any solid or liquid waste, its container and any intermediate product which is generated during the diagnosis, treatment or immunization of human beings and animals.

**COURSE HIGHLIGHTS**

- Certificates on hospital waste management.
- All the students of paramedical department.
- Includes session from expert.

**PROGRAM OBJECTIVES**

- ♣ To protect the risk of spreading diseases.
- ♣ To protect against injury and potentially fatal infection.
- ♣ To provide environment-friendly waste management solutions.
- ♣ To promote the quality and sustainability of the environment.

**BROAD TOPICS TO BE COVERED IN THE COURSE**

- Reduce adverse effects of waste on human health, the environment, planetary resources and aesthetics.
- To reduce the dangerous effects of such waste on the environment and human health.
- To protect our environment from pollution and contamination and repair and reduce the damage caused by pollution.

**CAREER OPPORTUNITIES**

- Solid waste management coordinator
- Marketing executive
- Waste management and compliance officer.

**FACULTY COORDINATOR**

# Fire and safety

## Introduction

Fire safety training educates a set of practices & procedures to minimize the destruction caused by fire hazards. The skill & knowledge acquired through these trainings equip the learners, to combat fire in any un-anticipated fire breakout.

### IN CASE OF A FIRE Remember the R.A.C.E. acronym

**R** **A** **C** **E**

#### RESCUE

Assist anyone in immediate danger and help get them to a safe area as fast as possible.

#### ALARM

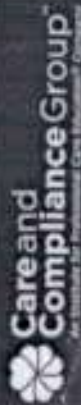

Alert others by activating any available alarm system. Contact 911 to report location of fire and alert on-site personnel.

#### CONTAIN

Confine the fire as much as possible by closing doors and windows behind you during evacuation.

#### EXTINGUISH

Only attempt to put out the fire if it is small, you have proper equipment and it is safe to do so yourself.

FACULTY COORDINATOR:-

- 1) Profe. Shikha Shrivastav (HOD of Child Health Nursing)
- 2) Ms. Karamjeet Kour (Tutor)

## COURSE HIGHLIGHTS

- Fire legislation and regulations.
- Chemistry of fire and how a fire spreads.
- Fire detection.
- Fire prevention procedures.
- Fire evacuation procedures.
- Fire extinguishers.
- Fire fighting tools and techniques.

## OBJECTIVES

- Identifying the procedures involved in fire formation.
- Discuss the causes and classification of fire safety at the workplace.
- Discuss the importance of various fire safety control tools.
- Outline the elements involved in the prevention of fire.
- Familiarize with workplace safety inspection & reporting all the procedures.
- Describes various fire safety devices & their working techniques.
- Shares the crucial responsibilities of an emergency evacuation plant.
- Acknowledge the various types of fire extinguisher & their usage.

## CAREER OPPORTUNITY

- fire warden
- safety officer

# Certificate Program In Hydroponics

## INTRODUCTION TO THE COURSE

It is a kind of hydro culture and is a technique of growing plants using solutions rich in mineral nutrients without soil. Terrestrial flora could be grown with their roots in the mineral solution only, or in an inert medium like gravel or perlite. The nutrients in hydroponics could be obtained from duck manure, fish waste and from normal nutrients. As we all know plants need soil for their nutrients. Hydroponics system follows the same principle as all necessary nutrients are supplied well in advanced.

## COURSE HIGHLIGHTS

- Certificate on Hydroponics.
- All the students of agriculture.
- Includes session from experts.

## PROGRAM OBJECTIVES

- Conservation of water and nutrients.
- No more use of fertilizers, pesticides, and other chemicals.
- It can be grown anywhere as it requires very less space for growing and involves a soil-free condition.
- It minimizes the loss of nutrients and has a lot more accurate control over the nutrients required by the plants.

## HYDROPONICS BROAD TOPICS TO BE COVERED IN THE COURSE

- Higher yield.
- Controlled level of nutrition.
- Plants are healthier, and they mature fast.
- Susceptibility to pests and diseases is negligible.
- Automation is possible.
- Water present in the system can be reused, which facilitates water conservation.

## CAREER OPPORTUNITIE

- Self-employment
