## **A brief report on women empowerment through Self-defence session by martial art trainer for university girls**

### **Rationale**

Empowering girl students to fight back against crime has been the call of the day. In this modern era, violence against girl students has been very common in every street of both rural and urban setting. Small kids, girls and even women members are feeling insecure the moment they are out of their homes for any purpose for that matters. It is very important for every girl and woman to get prepared mentally and physically well equipped with required skills and techniques to defend oneself from any kind of antisocial element prevailing in the society today. The paradox of self-defense is that the more prepared you are, the less likely you are to need it.

The main objectives of the Programme was

- To enable them to defend against any type of physical assault.
- To build self-confidence so that they can contribute meaningfully to their own development, shape their own destiny and capacity enhancement through Self-defense training.
- To equip the girls with self-skills, so that they can avert any kind of awkward situation at the first instances. • To spread a message to the violence-maker that girls are being ready for countermand awareness is being developed among the girls in this regard
- . • To empower the girl students in all aspects With this emerging needs and objectives in mind SSSUTMS organized 1 day of Self Defense training for all its B.E first years' students at the campus with the facilitation of renowned karate trainer Ms. Divya sharma, on 16/09/2017. These session were fully occupied with practical demonstration and practices facilitated by 1 well known and experienced martial art instructor. These types of initiative for girl students have really helped the girls to relieve stress, get and stay in shape, and learnt all valuable self- defense skills and techniques at the same time. During the valedictory session, some of the girls frankly opined that these tools have greatly increased the personal protection options to combat crime. It has built the confidence of every student participated in the training that they can freely move to their destination day in and day out. They feel that they are also less likely to become a target of crime. They recognize improvement in Karate Technique and they indicate progress. Here are five benefits associated with taking women's self-defense classes: Self-defense helps you to stay safe. Ideally, you hope that you can avoid the kind of trouble that would require you to defend yourself. But we never know when we might be attacked. Understanding self-defense enables you to defend yourself and your family when it matters, and to reduce the risk of serious harm. However, self- defense isn't about teaching you how to engage in a fight with your attacker. Instead, it teaches you how to disable your attacker quickly and then take advantage of the situation to get away safely. Self-defence improves your self-

confidence. Once you've mastered the key skills and techniques required for effective self-defense, you'll have a higher sense of self-worth from this achievement that will improve your confidence and self-esteem. Self-defense teaches you to have a greater awareness of your surroundings, so you feel empowered to defend yourself in any situation. That awareness can extend into other areas of your life. For instance, you may feel more confident and capable when dealing with any difficult circumstance, whether at home or at work. Self-defence can increase your social awareness. Martial arts teaches the importance of respecting differences and showing respect and tolerance for others. These things can help you to interact socially with people in a whole new way. You'll also get to meet different kinds of people of all ages in a self-defense class for women. Interacting with a diverse group of people who have a shared common goal is a great way to make new friends. Learning self-defence may increase your discipline and focus. It requires motivation and dedication to learn self-defense. You'll also learn the importance of control. The controlled movements of martial arts combined with self-awareness of the situation you're in and the need to think before acting can improve your overall self-discipline because these behaviors likely will filter into other areas of your life. You'll feel fitter and healthier. Self-defense classes count as exercise, so they can improve your physical fitness and overall health and wellbeing. For instance, exercising on a regular basis improves your muscle tone. Cardiovascular exercise can strengthen the heart, which could give you more energy during the day, help you sleep better at night and lower your blood pressure and cholesterol levels. Regular exercise can benefit your mental wellbeing too. It provides an outlet to relieve stress and can improve your motivation. After learning self-defense you may find it easier to manage difficult situations that would previously have made you anxious. We can offer you all these benefits and more when you join one of our self-defense classes.

### Independence Day

#### REPORT ON INDEPENDENCE DAY CELEBRATION

Date: 15 AUG 2018

Venue: Campus Ground

Time: 9:00 AM

It was a red letter day in the history of India when the country got her freedom on August 15, 1947. It took hundreds of years for us to break shackles of slavery. People of the country celebrate this festival every year with great pomp and show.

For this year, for this year, we had made all the preparations. We began this day from the hoisting of the Tricolor followed by National Song (Vande Mataram). In the morning NCC cadets of our school marched out in a procession through the main campus ground with a band playing the National Song (Vande Matram). This tribute to our country and flag was awesome. This event was ended by the speech of VC and Register which brought the spirit to the event.

## WALL PAINTING COMPETITION –“WOMENS OF INDIA”

The status of women in India has been subject to many changes over the span of recorded Indian history.<sup>[4]</sup> Their position in society deteriorated early in India's ancient period. The staff with of Sri Satya Sai University of Technology & Medical Sciences, Sehore, were taken on a surprise visit to Sanchi Stupa on 29 August 2019 There are four gateways in the complex of Sanchi Stupa. The pillars at these gateways showcase the events of Buddha's life and Jataka tales. Our guide introduced us to three such stories – Mahakapi Jataka, Sama Jataka and Chaddanta Jataka.

In the Mahakapi Jataka, Bodhisatta is believed to be a chief of monkeys. He ruled over eighty thousand monkeys in the Himalayas. One day, a king from the plains decided to seize the mango tree that was used by the monkeys for food. The king decided to kill all the monkeys. While saving the monkeys, the chief had to sacrifice himself. The king was moved by this selfless act and arranged a grand pyre for the chief.
