IQAC REPORT SUMMARY

In pursuance of the action plan for performance evaluation assessment and accreditation and quality up gradation of institutions IQAC is established. The prime task of the IQAC is to develop a system for conscious, consistent and catalytic improvement in the overall performance of institutions. So for educational institutions, it's a major role to involve all the faculty in research activities. With regard to this, Sri Satya Sai University Of Technology & Medical Sciences established IQAC on 12 December 2014 in order to increase the involvement of faculty in such activities. Until IQAC was established, in the university, some of the faculty members were interested to publish papers and some faculty members were used to participate in national and international conferences but once we have IQAC at our university campus there was a tremendous change in graph compared to earlier situation and at present most of the faculty members were supposed to publish papers and interested to participate in various conferences and workshops within the campus as well as outside the campus.
